Environmental Issues

Please keep our water clean:

- ◆ Only use fertilizers, herbicides and insecticides when absolutely necessary and never if rain is coming or within 12 feet of the water's edge.
- ◆ When boating, bring back what you take out.
- ◆ If you move your boat from lake

to lake — dry out your boat for at least two days or wash down the hull with tap water before launching again. Flush the engine cooling system, bilge areas and live wells with tap water.

- ◆ For additional information go to: www.staffordvillelake.com

Rules for PWCs on Staffordville Lake

PWCs (jet skis, etc.) must operate at least 200' from any shoreline or dock (per Connecticut Boating Regulations, 2003, pp. 44-45). Copies of the latest boating regulations are available from the DEEP or from the Stafford Town Clerk's Office.

Staffordville Lake has many areas that measure less than 450' from side to side. The two exceptions

are: the wide part of the north end and the wide part of the south end.

Therefore, PWCs may only legally be operated in the very middle of the lake. Please observe these state regulations — be responsible, be safe and be respectful of your neighbors.
